I am a passionate Front-End Developer with experience in HTML, CSS, JavaScript, React, and Bootstrap. I have completed a Full-Stack Web Development program and gained hands-on experience through personal projects and practical learning. I am eager to expand my technical skills through real-world applications. I am looking for an internship to develop my skills and contribute to impactful projects.

Work Experience

Full-Stack Web Developer (Personal Projects)

2025

- Built multiple full-stack applications as part of self-learning and training at SEF Academy.
- Developed front-end features using React and Bootstrap.
- Built back-end APIs using Node.js and Express, and connected to MongoDB databases.
- Deployed projects on GitHub
- Applied Git for version control and collaborated on GitHub repositories.

Projects

- E-commerce Website (Front-End)
- Developed the front-end of an E-commerce website with features like product listing, responsive design, and shopping cart interface using React and Bootstrap.
- Product Management System (Java)
- Created a simple product management interface using Java to handle operations like add, edit, and delete.
- Responsive Website UI
- Designed a modern, responsive website interface using Bootstrap, focusing on layout and mobile compatibility.
- React Demo Web App
- Built a small application using React showcasing component-based structure and dynamic rendering.
